

# ABSOLUTE EFFECTS

Everybody's skin has individual needs and requires an individual skincare regime. Sometimes it is not enough to apply "normal" creams and lotions in order to improve your skin to make it feel and look good.

ABSOLUTE EFFECTS are brand new cocktails of active ingredients with proven effectiveness, highly concentrated and free from fragrances, parabens and mineral oils.

They are so effective and so pure that your professional beauty therapist also uses them together with the OXYJET pulsed pressure injection.
